Peripheral Angiogram Pre-Procedure Instructions

You are scheduled for a procedure on your legs. The following is some helpful information in preparation for your procedure.

Time:

Please allow 2-3 hours for the procedure itself. There will also be a 2-4 hours of 'recovery' after the procedure.

What to bring:

- No need to bring anything
- Arrange for someone to drive you home after the procedure

Food:

DO NOT EAT for 6 hours prior to the procedure. Please hydrate actively on the night prior to the procedure.

Medications:

Please continue your usual morning medications, unless instructed otherwise, with a small sip of water. If you are on any **blood thinners**, please ask your physician if it is necessary to hold it for the procedure.

Misc:

Please do not use lotion on the leg to be treated, on the day of the procedure.

Post-procedure:

You will receive a full set of instructions after the procedure, including activity, shower, etc. You can expect some mild bruising and swelling.

Please contact us ahead of time for any questions or concerns.

By signing this, I acknowledge that I have received these Pre-Procedure Instructions, and I agree to abide by them.

I understand that if I need to cancel the procedure, I must cancel >48 hours in advance. Otherwise, I will incur a \$100 cancellation fee.
